Authorization for this examiner's amendment was given in a telephone interview with M. Rosenberg on 3-17-06.

The application has been amended as follows:

In claim 1 line 12, --;whereby a user steps on said pedal for pulling the cable and disengaging the block such that the platform is released and displaces downwardly— has been inserted after "pedal".

2. The following is an examiner's statement of reasons for allowance: The prior art fails to show or teach a jogging (treadmill) machine having a base, a pivoted platform, a lever pivotally connected between the platform and the base and having a cylinder pivotally connected to the base; a pedal, a cable, a block, and a spring, whereby a user steps on said pedal for pulling the cable and disengaging the block such that the platform is released and displaces downwardly.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
